About Beer and Whisky An Expert Talks.

Robert Thomson, a wealthy English capitalist, who has been looking through the United States for the purpose of making investments, is in Washington on his return to his home. Having read some recently published official figures indicating the great increase in the consumption of beer in the United States he gave some attention to breweries in different cities and to the liquor and taxation laws of the country, studying the internal revenue laws of the treasury.

To your correspondent he expressed some mighty interesting views: "Conditions in America are far different to what they are in Great Britain so far as the consumption of alcoholic drinks is concerned. I have noticed few people over here who are the worse for drink and those who are in saloons and cars. In nearly all instances they were drinkers of spirits. The method of drinking liquor without water and then drinking a little water afterward leads to drinking more than would be the case in England, where the spirits and water are mixed together.

Beer drinking in this country, from my observation, seemed to be without drunkenness. I understand the American beer contains only about three per cent. of alcohol. We would consider this a temperance drink in England, our beer being much heavier and containing a higher percentage of alcohol. I do not understand why temperance reformers in America make objection to the beer of this country, while ciders and similar drinks containing far more alcohol are not objected to. I presume it is because the true facts are not known.

"The way we look at these things in England is that the objection to a drink is in the amount of alcohol it contains. By this we make a fight against the drinks containing high percentages of alcohol. First, not classing them all together, like the temperance people here do. I should think that if the temperance leaders of America could educate the people to the milder and lighter drinks, taboos the strong ones, they would accomplish more than they do in advocating prohibition.

"Another thing that struck me forcibly is the heavy government tax upon beer. It is the drink of the workman by reason of its cheapness, purity and food qualities. It is better that this is so, as the American workman is unexcelled the world over. If he drank stronger drinks he would be less useful and reliable. The working people of Great Britain would be up in arms if such legislation existed in that country. Alcohol is taxed heavier in my country than in any other in the world, but the taxation is in accordance with the proof strength. It appears to me that the rich man's drinks should bear as heavy a proportion of tax as the poor man's, but that is not so in the United States, where beer pays a much heavier tax than the strongest spirits."

A few weeks ago Mr. John Dineen got hold of a square-built Western pony with flowing mane and tail, says the Hancock Clarion. He thought he had a treasure until he attempted to put the nagrassett to some practical use. The animal was an enemy to mankind, and when a member of the genus homo would go near he would raise his hoof and sight like a boy with a musket. When he believed his aim was good he would let go and perforate the atmosphere. If the horse failed to strike a man after taking careful aim he would become so enraged that he would scream like a panther and lie down and really grieve. Two days ago he died because he missed a fellow when kicking at him.

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, cure headache, dizziness, colic, constipation, etc. Guaranteed at G. L. Penny's, Stanford, Lyncie Bros., Crab Orchard, 25c.

The amount required for the completion of the existing project on the Falls of the Ohio river is estimated in the annual report of the chief of engineers at \$477,569.73. The balance available on July 1 last, was only \$78,419.

The Government has taken steps to prevent the importation into this country of egg yolks mixed with borax, a product coming from China and used, it is said, by wholesale bakers, when American eggs are high.

IN NEIGHBORING COUNTIES.

Dudley Barnett is dead at Bryantsville from the infirmities of old age. A wife and 14 children survive him.

The Bank of Mt. Vernon has declared its usual 10 per cent. dividend, besides putting a nice little sum to the surplus. —Mt. Vernon Signal.

In a fight at Richmond over a bar bill Anne Harris, a saloon-keeper, was stabbed and J. L. Baker, former candidate for county assessor, was shot in the leg. Neither man was seriously injured.

Mrs. Walter Stotts, whose husband was killed in a street fight at Harrodsburg by Policemen Britton and Herron, says she will fight the case to the bitter end. The officers were acquitted of the killing of Sam C. Binek, which occurred at the same time.

Middleboro is practically at the mercy of a lot of ruffians, it is said, by Frank Bell, indicted for the murder of Jack Bolen. The new militia company is patrolling the streets, but this is not deemed effective. Business is paralyzed, and the Western Union manager has been warned not to send out any more press dispatches. Sheriff Tyrus Howard has notified the county authorities that he will resign his office.

Claud Grubbs and Elvin Mays, of Kidds Store, loaded with men whisky, went to the home of J. H. Pemberton and acted so unmanly that Pemberton began on them with an ax, the only means of defense handy. Mays received an ugly wound in the head, neck and shoulder, and Grubbs one in the back 14 inches long, severing two ribs from the backbone. Meanwhile Mays regained consciousness and opened fire upon Pemberton, one ball entering the right lung and lodging in the left arm, and another taking effect in the left arm, making an ugly flesh wound. It is believed that Pemberton will die of his wound. Mays and Grubbs have left for parts unknown, it is reported. —Cassie News.

C. B. Candler, alias James B. Smith, has been arrested at Red Lodge, Mont., on a forgery charge at the request of Somerset, Ky., officials. Candler, who is in poor physical condition, not only admits his connection with the forgery, saying it amounted to only \$30, but also states that he is implicated in a killing in Kentucky. He admitted to Sheriff Potter that he had killed a man in Somerset and had escaped from jail. He declares the act was committed in self-defense. He had brought suit against John Stanger, who as a result, essayed to cut him with a knife, and during a scuffle he shot Stanger. He was convicted of manslaughter, but escaped. He says he now wants to return to Kentucky.

One Recompense.

Now's the doleful
Time of year
When the leaves are
Sad and sore;
All the skies loom
Dark and gray
Whilst most people
Feel that way.
Drear and irksome
Is the fall,
Time of woe and
Time of gall;
But there's one wee
Ray of light
Piercing through the
Inky night.
When the bleak winds
Strip the trees
Then the darrest mo-
Quitoes freeze!

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonableness, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by G. L. Penny, Stanford, Lyncie Bros., Crab Orchard, Price 25c.

The stork one day
Had lost its way,
Was tired and full of rancor
And asked the child
That it smiled
Where it would like to anchor.

The kid was wise,
As you'll surmise,
And murmured to the birdie:
"Just take me down
To New York town
To dear old Pa McCurdy." —Puck

PENNY'S DRUG STORE

Tells Why They Endorse Vinol So Highly.

First: Vinol contains in a concentrated form all of the medicinal curative elements of cod liver oil, actually taken from fresh cod livers, but without a drop of oil to nauseate and upset the stomach, and retard its work, therefore where old-fashioned cod liver oil or emulsions will do good Vinol will do far more good.

Second: Because Vinol is not a patent or secret medicine; it contains no injurious drugs to react upon the system, and you know just what you are taking, as everything it contains is printed on the back label of every bottle.

Third: Because Vinol acts first upon the stomach, creates a healthy appetite, tones up the digestive organs, purifies and enriches the blood, and in a natural manner health is restored and strength is created.

Fourth: Since we first put Vinol on the market our admiration for it has steadily increased, because it rarely disappoints a customer, in fact we can truthfully say we never sold a medicine more satisfactory to create strength for old people, sickly children, nursing mothers and to build up strength after a severe sickness.

Again Vinol is endorsed by eminent physicians and guaranteed by over 2,000 of the leading druggists of this country. These are some of the reasons why we believe in Vinol. Penny's Drug Store.

Mr. John T. Newton, of Campbellsville, for 16 years jailer of Taylor county, has resigned his position and come to make his home with his son, Abe Newton.

Quite a number of boys, some of whom are well grown and all well-known, on Halloween night committed acts of vandalism in the willful and deliberate destruction of personal property. As some of the grand jury at the next term of court are from this locality the probability is that the matter will be investigated by that body.

James Frye and his excellent family leave about the 15th to make their home in Lexington, where Mr. Frye's greatly increased business demands all his time. With much regret we give them up and hope Dame Fortune's smile may meet their every want and in the near future, having acquired a sufficiency of the ever needful, gladly will we welcome them home again mid the scenes of their childhood in the "West End."

The spirit of vandalism seems to have reached the limit in the vicinity of Kidds Store as well as here and the indignation of the good people there is intense. Some weeks since a Magdeline of Long Branch was brutally assaulted and the matter of wide publicity has never proved the drastic legal measures so eminently demanded. Rather has there been virtual condonement by measures of arresting justice which certainly encouraged the late invasion of John Pemberton's home with tragic results.

Elvin Mays and Claud Grubbs were reasonably drunk and forced John at the muzzle of a pistol handled by Mays to feign drinking from their bottle of whisky, to lie down on bed and perform some capricious evolutions. Then Mays grasps a girl of 12 or 13 years, dragging her out the door in the dark, while Grubbs with a razor held near the baby's throat making an indecent proposal to the young, frightened mother. Then Grubbs followed Mays and his proposed victim out of the house. Pemberton fished an ax from under the bed, dealt Grubbs a cut in the back, which he hoped had killed him, then attacked Mays, dealing him a liek on the head which failed of its design because of a bullet from Mays' faithful 44 disabled an arm and lodged near the heart and he lays now in a very precarious condition. Grubbs and Mays have sufficiently recovered to flee the country. The outrageous brutality of this affair is unfit for publication. From reports the officials of Casey county were derelict in their duty or the vandals would have been captured.

"I Thank The Lord!"

cried Hannah Plant, of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at W. L. Penny's Stanford, Lyncie Bros., Crab Orchard, 25c.

All argument in favor of the secret ballot is overwhelmed by the indisputable fact that there have been more frauds, more contests, more heated, partisan fights and more buying and selling of votes under the 12 years of secret voting than in the preceding generation of open balloting. Every good citizen, whatever his politics, should turn this fact over in his mind and vote as his conscience appeals to him. —Glasgow Times.

Mrs. Arthur Massengill, of Wayne county, started a fire in the kitchen stove with kerosene oil. An explosion followed and she was burned to death and her husband and sister-in-law were probably fatally burned. The house was destroyed by flames.

INVESTIGATION shows that there are millions of copies of bound volumes of printed matter absolutely thrown in the dump pile in the public printing office and utterly worthless. Mr. Ricketts, the new Public Printer, has made a cut of \$907,022 in the estimates of the cost of the Government printing in the next fiscal year. For the last fiscal year, ending June 30, the cost of the public printing was \$6,760,256. There is no doubt that this enormous total might be reduced one-half by proper changes in the printing laws without public detriment.

GOVERNOR HOCH, in a speech before the Woman's Christian Temperance Union Convention at Topeka, Kan., said that he will depend to a great extent upon the prayers of Kansas women in his coming contest for renomination. Prayers are good things in their places, but they don't generally win elections. The governor is a goner if he doesn't apply the usual methods.

MAYOR POWELL and President Roosevelt are in conflict. The former, who has made some reputation as a Thanksgiving proclamation writer since he has been mayor of Henderson, proclaims the fourth Thursday as the day to give thanks, and now comes the president fixing the fifth Thursday. SCORE another for Theodore. He went to Wilkes Barre, Pa., recently and addressed the Catholic temperance workers. Immediately afterward the Grand Division Sons of Temperance of Pennsylvania in the headquarters sent workers into the coal fields and as a result 22 divisions of the organization have been formed with a membership of 2,000.

A SLUSH fund of \$5,000, which was sent to Lincoln and Casey counties by Boyle county republicans, would buy a nice sized slice off of a Blue Grass turnpike farm, but it won't buy a seat in the Kentucky State Senate and you'll see it. - Danville News.

If every democrat does his full duty to-day the republicans will not attempt to capture the county offices again. If they should win even one race, they will give us more trouble next time. Vote in the circle under the rooster and you will help give the republican party a black eye.

MR. J. L. JOHNSON, who is back from a prospecting tour of Oregon, showed us yesterday a lot of apples he brought back with him and which were raised near Hood River. They are the finest lot we ever saw. He also has some Oregon grown Irish potatoes, which are as large as small pumpkins.

WE take this method to thank those friends and customers who have patronized us while in business in Stanford. Many of you have given us friendly encouragement that has endeared you to us far more than the mere purchase of goods has done and we do sincerely regret that we have found it necessary to leave you. Our successors, Messrs. Tribble, Hughes & Huey, are too favorably known to all to make it necessary for comment from me. Mr. L. M. Huey will have full charge of the business, and although quite a young man, manifests that good taste and judgment that certainly stamps him as a merchant and we would like to ask of you to give him that same liberal encouragement you gave us; and our word for it, you will have a store in Stanford you will be proud of. John P. Jones.
